IT Staff Augmentation

SDTR Consulting LLC continue to grow by providing extraordinary services as we have provided to other entities in the past, present and anticipating future. Our company has been involved with several software implementations from old legacy systems to more efficient robust system providing pre- and post-go live IT Staff Augmentation services.

SDTR Team success consist of an approach that asked questions relevant to the customer such as who, where, why followed by a logical explanation using qualitative and quantitative analysis solving the needs of the customer.

Where can we find the resources? We will determine if our current group of candidates have the necessary skill sets to fulfill role(s). Some of our employees are found by additional avenues such as networking on LinkedIn, attending conferences, reconnecting co-workers, and subcontracting arrangements.

Who can fulfill this position? Staff with the skill set and ability to successful implement deliverables with ninety-nine percent accuracies. In addition, each member has compatible experience to another skill set ensuring total cohesion within the group.

Why should we select this specific resource? It is our utmost objective to ensure resources are best qualified to produce the work requested with a finished product/service to all stakeholders and agencies involved.
